PROJECTS

Educational COVID-19 Game | Web Development (Group)

July 2020

- Myself and three others created an educational COVID-19 game based on the popular web game "Cookie Clicker".
- Designed the UI/UX for the site and assisted in designing the logic for the game systems.
- Achieved using CSS, JavaScript, and MySQL.

Airport Database Project | Databases (Group)

March 2019

- Co-created a database to represent a fictional airport.
- Designed an entity relationship diagram and translated into a relational model before creating the database in MySQL.
- Achieved using MySQL and Apache.

RELEVANT EXPERIENCE

Imprivata | Lexington, MA

January 2020 – May 2020

IT Intern

- Responsible for resolving tickets ranging from requests for new equipment to troubleshooting device errors.
- Assisted users at the service desk with any technical issues they may have had.
- Imaged new assets for users.

IBM | Littleton, MA

August 2016 – August 2017

Watson Infrastructure High School Intern

- Wrote scripts to automate data gathering on Watson databases.
- Gained experience programming in Python and working with Linux.
- Selected as one of two out of six total interns to work for the summer of 2017 and train four incoming interns for the 2017-2018 year.
